IN CONSTRUCTION:
Fully automated high-bay storage
system with 20,000 storing positions

THERE IS A PACKAGING SOLUTION.

AUER Packaging is a medium-sized company from the beautiful Bavarian alpine upland. AUER GmbH has developed itself over the last 30 years, through willpower and passion, into one of the leading German manufacturers of storage and transport products made from synthetics. The continuous advancement of storage and transport containers for solid and liquid materials is the central focus in day-to-day business at AUER Packaging: the 35 million products that we manufacture each year are all made in Germany. A growing number of these products are being made in our own production halls at our headquarters in Amerang. Reliability, modernity and flexibility are three words to describe the powerfully expanding company. Because the best service, the most up-to-date production and products suited to customer needs are self-evident at AUER Packaging. Service is therefore boldly underlined - whether it's an individual or bulk order, small business or large corporation.

FOR AN INNOVATED WORLD.

The Management team, consisting of Robert Auer, Diana Auer and Philipp Auer, has enjoyed three exciting and successful decades at the helm. We acquired the technology park in 2014. This transaction was complemented by the construction of two production halls. We then achieved the next two milestones in our company's history: We built a major warehouse facility and added a third production hall. A total of 38 state-of-the-art injection moulding machines in the three halls ensure flexible capacity at the Amerang site. A new fully automated logistics centre will also be brought on stream. Over the next few years, AUER Packaging will also continue to make a name for itself by launching new and innovative products on the market.

QUALITY
MADE IN GERMANY

QUALITY MADE IN GERMANY.

As an expert in industrial plastic packaging, AUER Packaging ensures that its products are always made from whatever material is best suited for the intended purpose: properties such as temperature stability, load capacity and impact resistance guarantee high-quality, robust products. What sets AUER Packaging apart is the fact that its products boast a unique, clean design, are extremely easy to use and feature well-crafted high-quality materials.

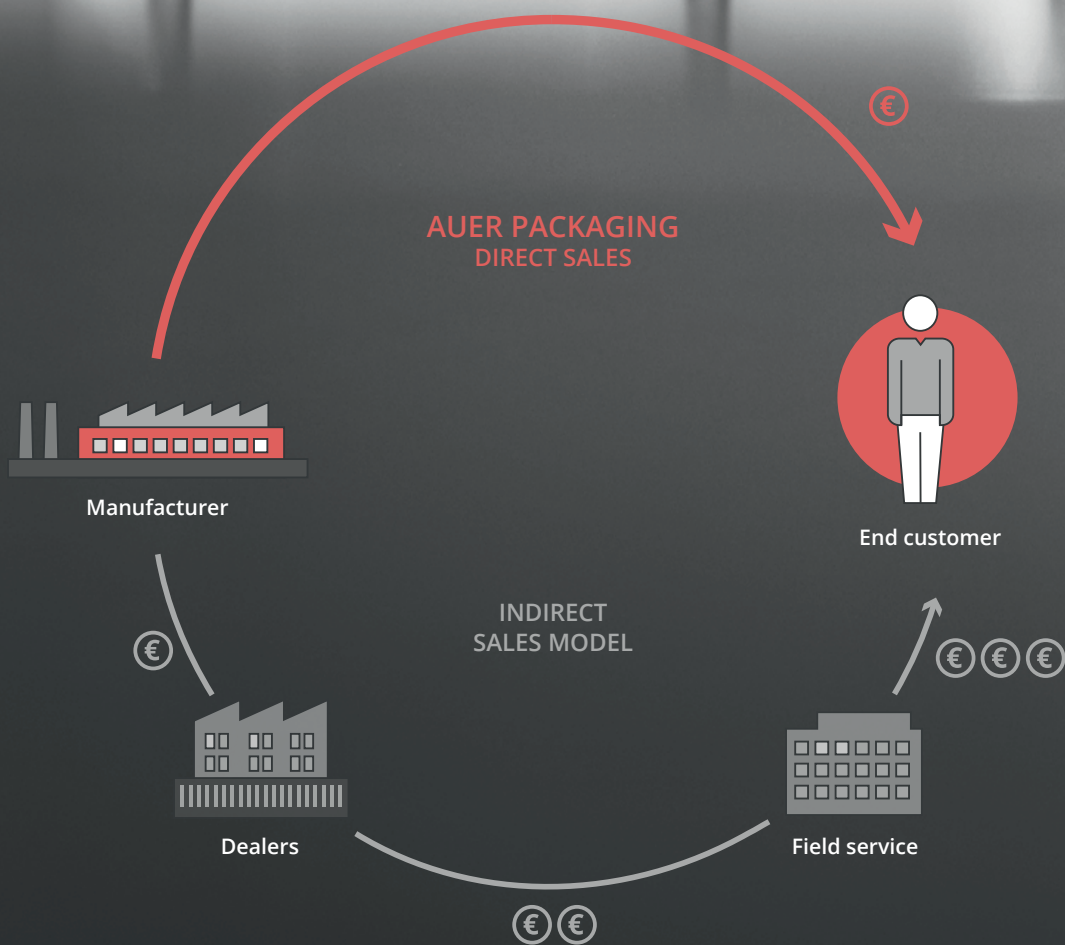

With the help of the QR code, you can gain valuable insights into our production operation.

DIRECT SALES – YOUR ADVANTAGES.

AUER Packaging products are exceptional value for money. The strategy behind this is as simple as it is successful: all products are sold exclusively via direct sales channels – i.e. via the online store, via telephone or via email. All products which feature the “Ready for shipment in 24h” logo are dispatched within 24 hours of being ordered. Quality doesn’t always have to come at a cost – see for yourself!

Sustainability through quality.

The idea that sustainability is only what you make of it also applies to plastic. AUER Packaging products are designed for long-term use. Our products have a typical service life of at least 15 years and many can be used for even longer. As early on as the development stage, we ensure that not a single gram too much and not a single gram too little is used. We strive to achieve the perfect balance between material consumption and functionality. Almost all AUER Packaging products are single-material solutions. This helps to ensure that they can be easily and, most importantly, fully recycled. At AUER Packaging, we also use in-house recycled material, for example for AUER plastic pallets.

All AUER Packaging processes are optimised in terms of energy and carbon efficiency: as such, we have managed to cut carbon emissions per kilo of granulate in half compared to 2019. We use only cutting-edge machinery in our production processes. The cooling circuit for production is designed to ensure that we do not have to add any fresh water or chemical additives. We use the waste heat to heat the company buildings. Our new photovoltaic system will produce up to 700,000 watts of power, which we will use for production purposes.

OUR TIP: INDIVIDUAL PRINTING

You can make your AUER products a perfect match for your company image through individualised printing. Text or logo, monochrome or four-colour – configure our products to have the exact look you want. It's easy – simply use our online configurator or ask our customer support department to advise you.

You will find further information under: www.auer-packaging.com

SOLID EURO CONTAINERS WITH A COUPLING SYSTEM

READY FOR DISPATCH **24** hours**
within

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Tight fit

The coupling system is used for those times when Euro containers have to be firmly connected to one another and not stacked. Locked and opened with a flick of the wrist, a stack of Euro containers can be turned into a compact tower that is handled like one single container.

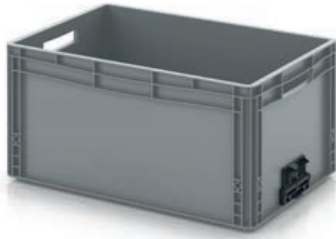

- Strong, dependable connection
- Fast and easy locking and unlocking
- Improved stack handling

***) only for orders placed via the online shop. Dispatch only on working days, provided the goods are in stock. Information regarding availability and current dispatch times can be found in the online shop.

INSERTABLE BINS FOR EURO CONTAINERS

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

READY FOR DISPATCH **24** hours**
within

A perfect overview

AUER Packaging's insertable bin is the ideal solution for flexibly subdividing Euro containers. It can first be filled and pre-picked with varying loads of initial parts and then be combined with other insertable bins in the Euro container. A Euro container with basic dimensions of 60x40 cm can hold up to eight insertable bins.

- Grip rim for easy handling
- Stackable due to reinforced rim
- Variety of possible loading options
- Up to 8 insertable bins per container

OUR TIP: EQUIP THE INSERT YOURSELF!

Inserts are also available unassembled! Using the grid, they are easily and individually equipped with individual insert boxes. Insert boxes of various sizes and colours can be found on page 70 »

BOX INSERTS FOR 60 x 40 cm EURO CONTAINERS

READY FOR DISPATCH **24** hours**
within

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Arrange & organise glasses and components

AUER Packaging's box insert for Euro containers brings order to the storage and transportation of glasses or components. The "bottom" insert is laid directly into the container, while the "top" insert is placed onto the container using two bars on the front of it and then pressed firmly into the container's handle opening.

» ESD version available in our online shop

- Holds the contents securely in place
- Sturdy internal compartments
- Good washing and drying results
- Various designs

PLEASE NOTE

The box insert 'top' is only suitable for Euro containers with open handles! Special ridges on the short sides of the insert can be hooked into the open handle of the container, ensuring a secure hold. The 'bottom' version is placed directly in the Euro container and can therefore be used without handles.

For more special compartments, go to page 42 »

***) only for orders placed via the online shop. Dispatch only on working days, provided the goods are in stock. Information regarding availability and current dispatch times can be found in the online shop.

INDIVIDUALISED INSERTS FOR EURO CONTAINERS

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

PARTIONS FOR EURO CONTAINERS

Even better sorting

Longitudinal and transverse dividers that make sorting within a container significantly easier can also be integrated in Euro containers with their smooth side walls without any problems. This is made possible by precisely fitting side panels that are equipped with multiple guide slots. Partitions made up of a combination of longitudinal and transverse dividers are also possible.

- Clean subdivision of Euro containers
- Fixed in guide slots to prevent slipping
- For Euro container basic dimensions of 40 × 30 and 60 × 40 cm
- Different dividers possible for each container size

OUR TIP: CONFIGURE INSERTS ONLINE

In our online shop, you can individually configure special compartments as well as longitudinal and cross dividers for Euro containers. Simply choose the basic size of the container, the height of the insert and the desired divider.

Order online now: www.auer-packaging.com

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

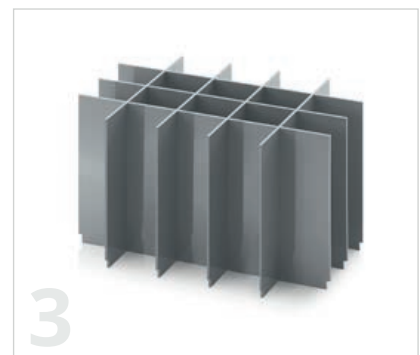

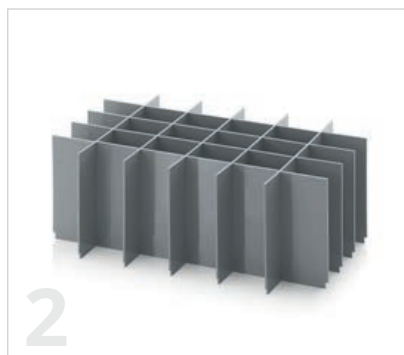

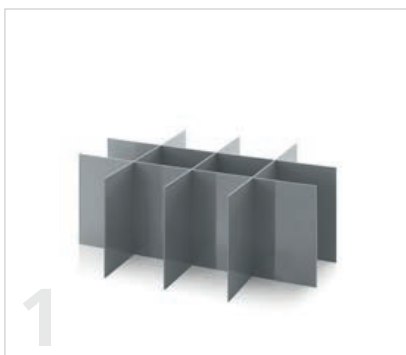

Individually subdivided

AUER Packaging's special compartments enable you to subdivide Euro containers exactly as you wish. The practical dividers can be custom-made for you upon request. Please note that the special compartments can only be configured in the online shop.

» Find ESD version on page 228

- Very stable
- Custom-made
- Precisely pre-cut connector system
- Matched to EURO dimensions

CUBED FOAM FOR EURO CONTAINERS

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

READY FOR DISPATCH within **24** hours **

Soft padding all around

The cubed foam variant is ideal when the contents of Euro containers are to be stowed in a non-slip and shockproof manner. The pre-punched cube structure enables precise adjustment of the pad to the content, for example to a camera or measurement device. Multiple pad inserts are used depending on the height of the container, which means that the shape of the content can be reproduced three-dimensionally.

- Individual adaptation to the most diverse objects
- Reliable anti-slip and impact protection
- Three-dimensional adjustment to the content possible

TOOL BOXES BASIC

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

READY FOR DISPATCH within **24** hours **

Simple convenience

AUER Packaging's basic tool box is a top-quality, versatile box which can be used to store and transport even bulky goods safely and conveniently. It is open at the top and has a correspondingly large capacity. The ergonomic handle guarantees an especially high level of carrying comfort, even for larger loads.

- Stackable when not coupled together
- Large capacity
- Rigid, ergonomic handle

TOOL BOXES COOL BOX

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

READY FOR DISPATCH within **24** hours **

Cool stuff!

22-millimetre thick full insulation made from EPP foam turns the toolbox into a passive cool box. Simply insert ice packs, ice or even just cooled contents, and the box will keep everything cool for a long time. Extremely simple and no electrics required. The box can also be used to keep contents warm using the same principle.

- Passive cool/warm box
- Full insulation with 22-mm thick EPP foam
- Usable capacity: 20 litres
- No electrics required

Versatile storage aids

AUER Packaging's reusable containers are an especially versatile storage aid. Due to their slightly conical shape, they can be stacked inside each other when empty or stacked on top of each other using lids or stacking frames.

- Up to 75% less empty volume
- Space-saving when transported empty
- Can be stacked inside and on top of each other
- Especially sturdy

***) only for orders placed via the online shop. Dispatch only on working days, provided the goods are in stock. Information regarding availability and current dispatch times can be found in the online shop.

SEAL

RAL 9017

	Article No.	Tensile load-bearing capacity	Price for single unit	Units on pallet	Unit price on pallet
11	PB	approx. 20 N	€0.28	125000	€0.21

OUR TIP: SEALING WITH PLUG-IN SEALS

Plug-in seals are used to seal transport containers. If the container has been opened, the seal at the predetermined break point is destroyed, which is an indication that something about the contents might have changed. Plug-in seals are suitable for reusable containers, IBC containers and folding boxes.

12 | SELF-ADHESIVE BAGS

Space saving made easy

AUER Packaging's foldable box combines impressive functionality and ease of use. In a few quick steps, you can fold it up and save up to 82% of the space taken up by a normal plastic container. The optional lid provides additional protection for the contents.

» Find ESD version on page 218

- Secure, quick folding
- Up to 82% reduction in volume
- Ideal transportation and picking box
- Sturdy folding mechanism

DID YOU KNOW?

Our folding boxes can be folded very quickly. Simply pull the red control elements on the sides upwards and push the outer wall slightly inwards. The automatic folding mechanism ensures that the box is reduced to a minimum of its actual size.

***) only for orders placed via the online shop. Dispatch only on working days, provided the goods are in stock. Information regarding availability and current dispatch times can be found in the online shop.

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

More finely subdivided

To bring even more order to your small parts, you can additionally divide the rack boxes into several smaller segments using precisely fitting partitions. The partitions are inserted into the guide slots on the walls of the containers to ensure a secure hold.

- Clean subdivision of rack boxes
- Fixed in guide slots to prevent slipping
- Front edge ergonomically bevelled
- Different dividers available for each rack box

Be up-to-date with small components

AUER Packaging's storage box with open front in Euro sizes is easy to load and unload, whether as a stand-alone unit or when stacked. This container helps you to be up-to-date with your products, tools and small components. The optional acrylic glass panel prevents your contents from falling out, getting covered in dust or being damaged.

- For tools and small parts
- Comfortable loading and unloading
- Acrylic glass panel optional
- Cut-out also possible on the long side

DRAWER CONTAINERS COMPLETE SYSTEM

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

READY FOR DISPATCH within **24** hours **

2 | SB-S2+.2

1 | SB-S1.2

Always at hand

AUER Packaging's drawer container is both practical and inexpensive. Thanks to its rugged modular design, the system can accommodate a large number of parts. The complete system consists of a transport trolley and drawer container, two drawer holders and six drawers. Also available as single components.

- Total load-bearing capacity: 70 kg
- 12 insertion grooves for drawers
- 2-12 drawers per container
- Stops prevent the drawers from sliding out

Special effects

In-mould labelling (IML) is a printing method, which lets your buckets shine in individual and brilliant design. The design options are limitless: Photos and graphics are printed in impressive high-resolution quality and can be supplemented with stunning effects. You have the choice of a wide variety of finishing options - from scented prints diffusing a selective aroma upon touching, across velvety soft surfaces to Thermocrom colours that change depending on the temperature. You are welcome to instruct our staff regarding your request printing!

- Scented prints
- Tactile effects
- Black light effects
- Thermocrom colours
- Partial UV finishes
- Metallic effects
- Removable prints
- Digital watermarks

SCREW-TOP JARS

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

READY FOR DISPATCH
within **24 hours**

Protected in next to no time

The screw-top jar by AUER Packaging features impressive tactile details which make handling especially comfortable and ergonomic. The comfort handle makes it easy to open and close the jar and is also used as a carrying handle. A separate inner lid or a seal integrated in the 2-piece lid ensures that the contents of the screw-top jar are reliably protected against external influences.

- Food-safe
- Water vapour-tight
- Stackable

PLASTIC PALLETS

The smart alternative

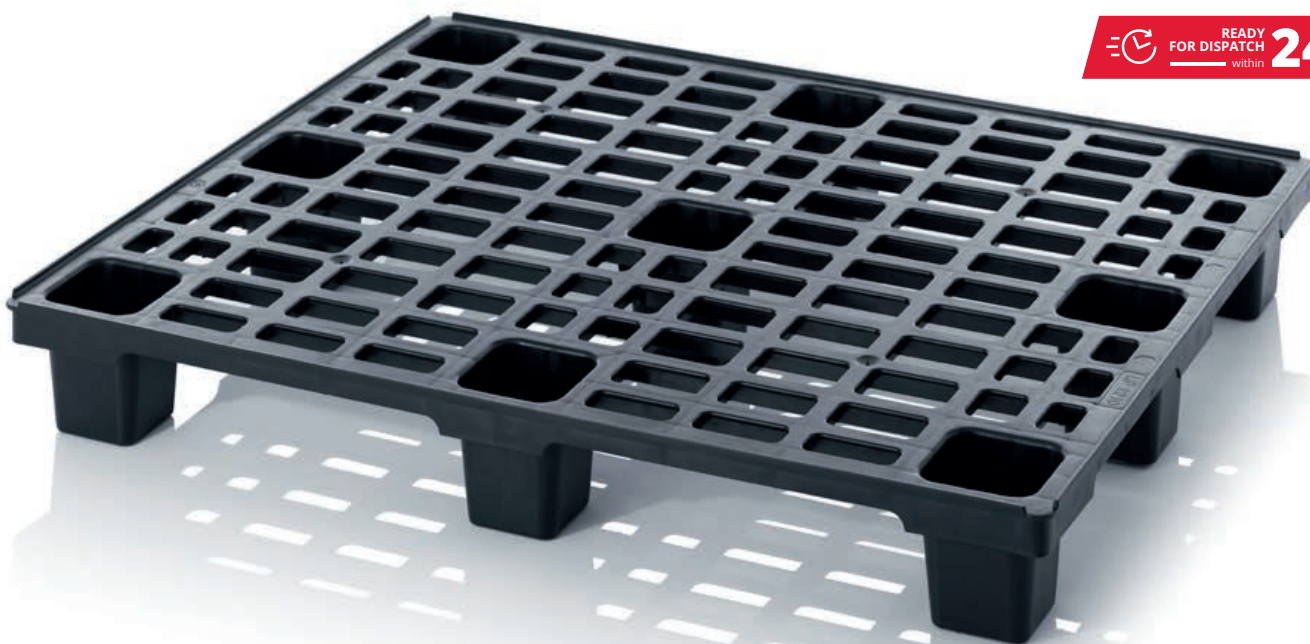

LIGHTWEIGHT PALLETS WITH RETAINING EDGE WITH FEET

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

SPECIAL COLOURS
Simply order online

READY FOR DISPATCH
within **24** hours **

Sturdy lightweights

The outstanding property of AUER Packaging's lightweight pallet is its especially low empty weight. It nevertheless has an impressive load-bearing capacity and is therefore suitable for use in worldwide transportation. Light pallets with legs can be stored inside each other to save space and skids provide optimal stability especially for large loads.

- Can be stacked inside each other to save space
- Low empty weight
- Very resilient
- Suitable for worldwide exports

CLEANROOM PALLETS MADE FROM RECLAIMED MATERIAL

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

READY FOR DISPATCH within **24 hours** **

Smooth does it!

AUER Packaging's cleanroom pallet is manufactured from reclaimed, recycled plastic material and is therefore somewhat cheaper than the version made from new material. However, this version has equally good load-bearing and cleaning properties. Please note that cleanroom pallets manufactured from reclaimed material are not food-safe.

- Made from reclaimed material
- Completely smooth surface (Production-related injection points unavoidable)
- Easy to clean
- Suitable for high-bay racking

Optimised handling

AUER Packaging's collapsible big box with 4 opening flaps offers ease and handling convenience: four flaps in the side walls provide quick and convenient access to the contents. When not in use or being returned empty, the side walls can be folded inwards to save space.

- Easy loading and unloading
- Height when folded: 42 cm
- Optional label holder

Ergonomic transport

AUER Packaging's collapsible big box with ventilation slits is especially suitable for the storage and transportation of perishable goods due to the effectiveness of its ventilation slits. When not in use or being transported empty, the side walls can be folded inwards in a few simple steps in order to save space and costs.

- Ideal for transporting and storing foodstuffs
- With ventilation slits
- Volume-optimised side walls
- Product-friendly design

FOLDABLE LARGE LOAD CARRIERS

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Stable space-saving marvels

AUER Packaging's foldable large load carrier is extremely versatile: whether used as a food-safe hygienic container or a heat-insulating container, the large load carrier provides the best possible protection for its contents. To save costs during empty returns, the side walls can simply be folded down, reducing the volume tremendously.

- Ideal for transporting and storing foodstuffs
- Double-wall insulation
- Space-saving when empty
- Stackable with lid

THE COMBINATION OPTIONS

Tailor-made to suit you

AUER Packaging provides highly customised and flexible – and therefore highly attractive – combination options. You have the option of configuring the collapsible big box exactly according to your wishes: choose the right version for each individual side wall – regardless of whether it has an opening flap or is solid or whether it has ventilation slits.

- No extra costs
- Fully customised
- Also stackable with lid
- Optional accessories

BASE LAYER

- F | 4 feet
- K | 3 skids

It's this easy!

- » Choose whether the bottom should be closed (C) or have ventilation slots (O).
- » Specify the size of the container (e.g. 1208 for 120 x 80 cm). The standard height is 100 cm.
- » To choose the finishes you want for the front and side walls, enter the numbers of the figures.
- » Choose between feet (F) and runners (R).

If you have any questions, please do not hesitate to contact us:

BAG-IN-BOX IBC

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Hygienic storage of liquids

The bag-in-box IBC, with its interchangeable low-price liner bags, is the economic solution for storing and transporting liquid contents. Thanks to its robust design, the IBC container can hold 250, 500 or 600 litres, depending on the model. Unlike the foldable IBC/bag-in-box system, it is used when there is no requirement to save space when transporting the container with an empty load and when the container can be filled and emptied from above.

- Returnable container
- Easy to use and clean thanks to smooth walls
- Hygienic model
- Integrated, permanently affixed filling aid
- Optionally with skids or feet

BAG-IN-BOX IBC

COMPACT HD TRANSPORT TROLLEY 60 x 40 cm

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

The weightlifter

With AUER Packaging's compact HD transport trolley, you can fill your plastic containers with heavy loads and still transport them easily from point A to point B. The basic dimensions of 60 cm x 40 cm also allow you to transport two containers measuring 40 cm x 30 cm. With rubber or polyamide wheels, fixed wheels or swivel wheels, optional wheel stop or thread guard.

- Steel tube-reinforced version
- Extremely impressive load capacity of 350 kg
- High-quality, smooth-rolling wheels
- Aligned with Euro dimensions

MAXI HD TRANSPORT TROLLEY 80 x 60 cm

The large stackable version

AUER Packaging's new generation of Maxi transport trolleys can not just carry large plastic containers with basic dimensions of 80 cm x 60 cm: The board has also been designed that two containers measuring 60 cm x 40 cm or four containers measuring 40 cm x 30 cm can be safely placed next to each other.

Another new option: In addition to the steel tube reinforcement, which also features in the basic version, an ultra-strong heavy duty version with an additional pair of swivel castors is available. Thanks to the sturdy support in the middle, the Maxi transport trolley with six castors can handle a load capacity of 500 kg.

- Optionally available with 4 or 6 castors
- Extremely impressive load capacity of 250 kg or 500 kg
- Aligned with Euro dimensions
- High-quality, smooth-rolling wheels

Tidiness on the move

AUER Packaging's system trolley for Euro containers is the ideal solution if the contents of several Euro containers is frequently required at different work stations. This system trolley removes the need for laborious reloading onto pallets for transport and the need to carry items by hand.

- Stable aluminium profile
- High load-bearing capacity
- Lockable easy running rollers
- Easy to move, even when loaded

ESD EURO CONTAINERS WITH HINGE LID

READY FOR DISPATCH within **24** hours **

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

All-round protection

AUER Packaging's ESD Euro container with hinge lid provides additional protection for its contents. The lid and the hinges are manufactured from the same anti-static material as the containers. This prevents electrostatic charges from building up and existing charges are reliably discharged.

- Electrically conductive material
- All commonly used Euro formats
- Stackable
- Sturdy hinges

ESD STORAGE BOXES WITH OPEN FRONT SK

READY FOR DISPATCH **24** hours ^{**} within

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Anti-static functionality

The outstanding feature of AUER Packaging's SK ESD storage box with open front is maximum flexibility and functionality. It can be subdivided using various inserts, and it can be provided with viewing panels as well as a dust lid. As an electrically conductive storage box with open front, the container is optimised for the storage of electronic components.

- Electrically conductive material
- Very stable design
- Plenty of space for contents
- Stackable

ESD DRAWER CONTAINERS COMPLETE SYSTEM

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

1 | ESD SB-S2+

2 | ESD SB-S1

Always to hand

Thanks to its sturdy modular design, AUER Packaging's ESD drawer container can accommodate a large number of parts. The special, electrically conductive material provides reliable protection from electrical charges. The complete system consists of a transport trolley and drawer container, two drawer holders and six drawers.

- Electrically conductive material
- Available as single components
- 12 insertion grooves for drawers
- 2-12 drawers per container

ESD SYSTEM TROLLEYS FOR RACK BOXES

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

For optimum work processes

The appeal of the ESD system trolley for rack boxes from AUER packaging lies in its simple handling. Rack boxes and material flow boxes can simply be hooked into the perfectly matched aluminium rail system. This ensures that you have everything you need for your work clearly arranged and on hand exactly where you need it.

- Stable aluminium profile
- High load-bearing capacity
- Lockable easy running rollers

Tidiness on the move

AUER Packaging's ESD system trolley for Euro containers is the ideal solution if the ESD-sensitive contents are frequently required at different work stations. All its parts, including the rollers, are manufactured using electrically conductive plastic and are consequently securely protected from electrostatic charges.

- Stable aluminium profile construction
- High load-bearing capacity
- Lockable easy running rollers
- Easy to move, even when loaded

ESD SYSTEM TROLLEYS FOR EURO CONTAINERS 60 x 40 cm HEIGHT 200 cm

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Mobile organisation in XL-format

The ESD system trolley for Euro containers made by AUER Packaging is the ideal solution when the ESD-sensitive content of an especially large number of Euro containers is continuously required at different work stations. All parts including the casters are made of conductive plastic and are thus protected against electrostatic charging.

- Stable aluminium profile
- High load-bearing capacity
- Extra high model
- Lockable easy running rollers
- Easy to move, even when loaded

ESD FOLDABLE BOXES

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Anti-static in action

In a few simple steps, the volume of AUER Packaging's ESD foldable box can be reduced by up to 82%. What is more, the box is particularly light, very stable and stackable. The electrically conductive material reliably protects the electronic components from electrical charges.

- Electrically conductive material
- Secure, quick folding
- Up to 82% reduction in volume
- Sealable with lid

OUR TIP: SEALING WITH PLUG-IN SEALS

Plug-in seals are used to seal transport containers. If the container has been opened, the seal at the predetermined break point is destroyed, which is an indication that something about the contents might have changed. Plug-in seals are suitable for reusable containers, IBC containers and folding boxes.

ESD-R-KLT BOXES

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Fit seamlessly into each other

AUER Packaging's ESD R-KLT container is perfectly adapted to automated production processes and is suitable for use at various stages of production. Sensitive electronic components can be stored and transported without any problems thanks to the electrically conductive plastic.

- With ribbed base
- Built-in lid slits
- With adhesive surfaces for barcode
- Quiet running on conveyors

ESD-RL-KLT BOXES

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

READY FOR DISPATCH within **24 hours** **

Material flow conforming to the VDA standard

AUER Packaging's ESD RL-KLT box features a smooth underside and it incorporates drainage holes according to VDS classification directive BG 4.3 (except for the RL-KLT 3147). The electrically conductive material reliably protects the electronic components from static charges.

- Smooth base and inner walls
- Built-in lid slits
- With adhesive surfaces for barcode
- With drain holes

ESD LIGHTWEIGHT PALLETS

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

READY FOR DISPATCH within **24** hours**

Anti-static lightweights

The outstanding property of AUER Packaging's ESD lightweight pallet is its especially low empty weight. It nevertheless has an impressive load-bearing capacity and can therefore be used for worldwide exports. The electrically conductive ESD version is particularly suited for the storage and transportation of electronic components.

- Electrically conductive material
- Can be stacked inside each other to save space
- Low empty weight
- Suitable for worldwide exports

ESD PALLETS WITH SOLID COVER

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Anti-static cleanroom marvels

AUER Packaging's ESD pallet with solid base protects your goods during storage and transportation; its smooth surface also makes it particularly easy to clean. Sensitive electronic goods are protected from charges thanks to the special electrically conductive material.

- Electrically conductive material
- High load-bearing capacity
- Optional steel rod reinforcement
- Suitable for high-bay racking
- Also available without retaining edge

ESD INSERTABLE BINS FOR ESD EURO CONTAINERS

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Flexibly subdivided

AUER Packaging's ESD insertable bin is the ideal solution for flexibly subdividing ESD Euro containers. It can first be filled and pre-picked with varying loads of initial parts and then combined with other insertable bins in the Euro container. A Euro container with basic dimensions of 60x40 cm can hold up to eight insertable bins.

- Electrically conductive material
- Grip rim for easy handling
- Stackable due to reinforced rim
- Variety of possible loading options

OUR TIP: STACK INSERT BOXES

Our insert boxes are stackable, providing an overview and order in the Euro container. Insert boxes can be combined flexibly in different heights.

Our customer service will gladly assist you: info@auer-packaging.com

CUSTOMISED ESD INSERTS FOR ESD EURO CONTAINERS

AVAILABLE UP FROM 1 PIECE
no minimum purchase order.

Practical compartments

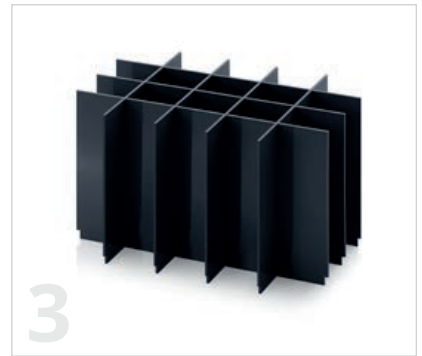

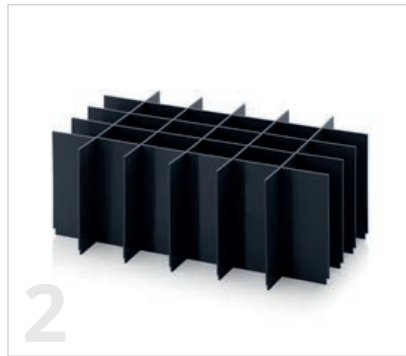

AUER Packaging's ESD transverse divider is the perfect solution if you want to subdivide your ESD Euro containers crosswise: a narrow insert on each of its long sides holds the dividers securely in place. Please note that the transverse dividers can only be configured in the online shop.

- Very stable due to narrow inserts
- Electrically conductive material
- Custom-made
- Matched to EURO dimensions

OUR TIP: CONFIGURE INSERTS ONLINE

In our online shop, you can individually configure special compartments as well as longitudinal and cross dividers for Euro containers. Simply choose the basic size of the container, the height of the insert and the desired divider.

Order online now: www.auer-packaging.com

ESD SPECIAL COMPARTMENTS FOR ESD EURO CONTAINERS

RAL 9017

Article No.	Design	Height	Length divider	Cross divider	Unit price
