

Treston Workshop **PRO Black Edition**

BUILT FOR PROFESSIONAL WORKSHOP ENVIRONMENTS

In a busy workshop, surfaces take a beating every day. Tools are moved, parts are handled, and workstations are constantly exposed to mechanical wear, dirt, and impact. Over time, furniture starts to look worn, even if it still functions, creating an untidy impression and a less efficient working environment.

That's where the Treston PRO Black Edition comes in. Designed for demanding workshop use, it combines a robust steel structure with a durable black coating that stands up to daily wear. The darker surfaces help conceal dirt and marks, keeping the workspace looking clean and professional for longer, without compromising on strength, functionality, or usability.

TRESTON

A smarter choice for demanding environments

- ✓ Supports efficient, safe, and comfortable working postures
- ✓ Modular, ergonomic and adaptable
- ✓ Designed to withstand mechanical wear, impact, and continuous use
- ✓ Durable black-coated steel. Helps conceal dirt, marks, and wear while maintaining a clean appearance
